Education Background

- ReBootKamp (RBK) Tunisia
Full Stack JS development
Oct 2022 - Mars 2023
- Kocaeli University
Computer Science
Sep 2014 - Jul 2019

About Me

Hello everybody, My name is Akram and I am a full stack developer. My journey started when I was 7 or 8 years old. My father put me in a computer club where I had my first interactions with a computer. After some years I found myself pursuing higher education in computer science. After that I decided to reinforce my skills in Web development (and also to be more suitable for the job market) by joining a boot camp at RBK Tunisia (ReBootKamp) in which I added new skills to my portfolio.

Experience

Marabout Technology

Oct 2023 -PRESENT

- Full Stack JS Developer:
- Angular / NodeJS
